

PRODUCT DESCRIPTION

STENI Vision

AREA OF USE

STENI Vision is a robust façade panel designed to be used as exterior ventilated cladding. It is suitable for all types of structures, and also for use as interior cladding. STENI Vision is particularly well-suited for areas where there is a lot of moisture.

ORIGIN

STENI Vision is manufactured by STENI AS in Vestfold, Norway. STENI AS has developed and manufactured unique façade panels since 1965.

SURFACES

STENI Vision has a smooth surface (front) of printed electron beam cured acrylic with up to a 10-year colour fastness warranty. Choose from several standard prints or create a custom motif. Standard gloss levels are matt (**M**), half matt (**HM**) or high gloss (**HG**). STENI Vision is a white panel dyed throughout. The edges of the panel are untreated, but can be delivered treated on request. The back of the panel is untreated.

COMPOSITION

STENI Vision is a fibre-glass reinforced cured polymer composite panel with a core of crushed natural stone.

FORMAT

STENI Vision is available in a thickness of 6 mm. Production width is 1,195 mm. Standard width is 1,195 mm. Panels are manufactured to maximum length of 3,495 mm. Standard length is 2,995. Other formats available on request.

UNIQUE PROPERTIES

STENI Vision is a highly resistant material that maintains its technical properties under extreme climatic conditions. These panels have excellent resistance

against a variety of chemicals. Unique properties include:

- ✓ Unique and creative designs and expressions
- ✓ High durability with up to a 40-year functional warranty
- ✓ Elastic and bendable
- ✓ Robust with high impact resistance
- ✓ Water impermeable and stable in humid and cold climates
- ✓ Easily washable surface that can withstand high-pressure washers up to 100 bar
- ✓ Flame retardant, surface fire class rating: B-s1, d0

ENVIRONMENT

STENI Vision has an environmental product declaration (EPD), which is registered with EPD-Norway, IBU and ECO Platform. This product is ECOproduct classified. At STENI AS, we manufacture our products in Norway, using green energy from hydropower plants. LCC (Life Cycle Cost) is among the best on the market.
